

Rock It, Unicorn! Queer in Action, your Profession? (I)

So, 15.09.2019 — Fr, 20.09.2019

Connecting - queer activism and working environment, be it in education or workplace -building relations and links of those two large areas of life are the focus of this Erasmus+ project.

Queer in Action, your Profession? I – is the first youth exchange, that offers 24 young queer activists from Belgium, Germany, Finland and Rumania a framework to reflect on how they define queer activism, what motivated them to start volunteering, in which kind of activism they are involved, what skills they have developed through their volunteering and how those skills could be implemented in a job application. An ongoing theme is to share the specific LGBTIQ* situation in the different countries and sensitize for self-care strategies.

The aim is to:

- find connections between competences and personal resources in those two large areas of life
- evaluate the motivations to get involved in shaping the future of civil society
- experience that different realities will lead to various strategies to solve problems
- realise the European dimension of respect for differences and safety of individuals

This Erasmus+ project "Rock it, Unicorn!" is conducted by "Wel Jong Niet Hetero" (Belgium), "Youth LGBT Organization Deystvie" (Bulgaria), "Jugendnetzwerk Lambda" and "Jugendnetzwerk Lambda BB:" (Germany), Comitato Provinciale Arcigay Il Cassero Bologna (Italy), "Stowarzyszenie Queerowy Maj" (Polen), "Asociația ACCEPT " (Rumania), "Seta" (Finland) and Akademie Waldschlösschen (Germany). It consists of two youth exchanges and one youth workers exchange. The findings and results of the two youth exchanges will be used for the professional exchange with the aim to determine content and suggestions, which should find its way into day-to-day queer youth work.
